## MAKE THE SWITCH TO ECO-FRIENDLY PLA COLD CUPS AND LIDS

Make the world a greener place by switching to Karat Earth® PLA disposables. Karat Earth uses only NatureWorks® Ingeo™ PLA plastics, derived from renewable sources that can be composted back into the earth as opposed to standard plastics derived from fossil fuels. PLA is nonvolatile and odorless compared to petroleum-based plastics. Karat Earth PLA flat and dome lids were designed to fit on 12-32 oz. cups, allowing for simplicity and easy storage. Add a logo or design to your cups using our custom print services.

FOR MORE INFORMATION, PLEASE CONTACT YOUR SALES REPRESENTATIVE.

ITEM#	DESCRIPTION	RIM DIAMETER (MM)	QUANTITY
KE-KC3	Karat Earth 3 oz. PLA Sampling Cup (Clear)	62	2500 (25x100) pcs/case
