Karat® PP injection molded containers are made thicker for superior durability than normal PP containers. All injection molded containers are light-weight, oil and chemical resistant, dishwasher and microwave safe, they can hold up against temperatures of up to 200 F. Karat® Injection Bowls are sealable with our PP Injection Molded Lids and are used for a wide range of products such as soup, salad, and ice cream making them spill-proof. PP injection molded food containers are great for takeout orders and reheating leftovers. PP is a recyclable material and its resin identification is 5.
