# MAKE THE SWITCH! TO PLA PLASTIC PORTION CUPS

Karat Earth® offers eco-friendly portion cups, also known as soufflé cups, that are made of PLA plastic, a plant-based plastic that is derived from renewable sources that can be composted back into the earth as opposed to standard plastics derived from fossil fuels. The PLA plastic is clear, allowing easy visibility of contents, and it is durable and shatter-proof.

The cups come with a matching lid that fits securely, making them leak-proof and spill-proof for easy transportation on takeout orders. Use our PLA portion cups to store or serve dressings, sauces, salsas, condiments, dips, and more. Switch today! (Available in 2 oz. and 4 oz.)

ITEM#	DESCRIPTION	RIM DIAMETER (MM)	QUANTITY
