PRACTICE SAFETY WITH KARAT®

Karat® Face shields, goggles, and infrared thermometers are all great additions to your business's safety operations. Karat Face Shields are ideal for protection against liquids, dust, and other harmful particles. The forehead shield is OSHA-Compliant and will help adhere to standard safety regulations. Karat Goggles will help protect your eyes from harmful particles like dust, chemical splashing, and many more without fogging up. Infrared thermometers are used to check temperatures in both Celsius and Fahrenheit without contact!
