MAKE THE SWITCH TO ECO-FRIENDLY PORTION CUPS

Karat Earth® offers eco-friendly portion cups, also known as soufflé cups, that are made of either commercially compostable PLA plant-based plastic or a biodegradable paper material. Both are derived from renewable sources that can be composted as opposed to standard plastics derived from fossil fuels. The cups have matching lids that fit securely making them leak-proof, spill-proof and easy for transport on takeout orders. Use our compostable portion cups to store or serve dressings, sauces, salsas, condiments, dips, and more. Switch today! (Available in 2 oz. and 4 oz.)
